The Nevada Housing Coalition is working hard to advance and promote affordable housing for all Nevadans through education, advocacy and collaboration. Today's Lunch & Learn will provide NHC members and Nevada housing stakeholders an update on the 2021 Legislative Session from our perspective. We will also give an update on the work of the NHC Task Force to develop recommendations for prioritizing a portion of our state's ARPA Fiscal Recovery Funds for affordable housing.

Mendy Elliott, NHC Lobbyist and Policy Support

Christine and Mendy finished the Session working side by side to track the various initiatives that impacted the NHC Legislative Agenda and the two areas of focus: Production & Preservation and Access & Equity. Mendy will share her perspective on the Session and the NHC bills that were passed and not passed. Understand the next steps as NHC gears up for the Interim.

NHC Task Force Update, Christine Hess

How much should Nevada allocate for affordable housing from its American Rescue Plan Act (ARPA) Fiscal Recovery Funds? In direct response to the [Every Nevadan Recovery Framework](#), and the [May 6th Webinar](#) hosted by NHC, NHC has convened a Task Force of over 70 stakeholders from around the state to develop a funding recommendation for consideration by NV leadership.
