Good news is on the horizon with the recent approval of vaccines and their arrival/imminent arrival in Nevada; however, our housing related challenges for our hardest hit Nevadans are still present. With the sunset of some of the initial funding Nevada received through the CARES Act on December 30th, what now? Is there short-term relief coming from Congress? How is Nevada planning to distribute additional funding to reach our Nevadans in need now?

There is no charge to attend; however, you must register in advance.
